RE: BURLINGTON ENVIRONMENTAL INC. PIER 91 FACILITY

FROM: DAVID CROXTON *DC* 3/30/92

In conversations during the week of March 23, 1992, I spoke with Martha Turvey, Ching-Pei Wang, Dan Kargill, and Bill Myers (all from the Department of Ecology) to determine if Ecology was pursuing corrective action at Pier 91 and whether Ecology would have any problems with EPA pursuing corrective action at this site. None of the aforementioned individuals were aware of any corrective action at Pier 91 and none of them thought there would be any issue with EPA pursuing corrective action there.
